DOUBLE THE DONATION MATCHING

Matching gifts made simple

About Daily Table

Daily Table is a nonprofit hunger relief organization masquerading as a neighborhood grocery store. They sell nutritious and affordable food to normalize and destigmatize the good experience for low income families in marginalized communities.

Unlocking Matching Gift Success at Daily Table

Before they implemented Double the Donation's tools into their tech stack, Daily Table did not have a way to capture and process matching gifts for donors. That meant that many donors were choosing not to get their gifts matched.

Now, with the help of Double the Donation, Daily Table is able to create a seamless experience for their users where they can type in their company and easily find out if they match. This has greatly increased the number of donors who take advantage of the opportunity. Fortunately too, achieving those results has not required a major lift for the team. Double the Donation embeds directly into their website so they can set it with confidence that it will work in the background.

[Double the Donation] is always available for our donors to come, type in, and easily process. All of the information is already set up, so there's very little we have to do once it's implemented, and it is a fantastic resource for us in increasing the amount of funding we're able to use in the community

Matching gifts made simple

University of Lynchburg

About University of Lynchburg

University of Lynchburg is a small liberal arts institution in Virginia. Their development office is charged with raising funds to provide better opportunities and experiences for their students.

Fueling Matching Gift Success at University of Lynchburg

Prior to utilizing Double the Donation Matching, University of Lynchburg only promoted matching gifts to their donors through one-on-one interactions. To increase donor awareness of match opportunities, the team would have to individually suggest to donors that they contact their human resources department for information on the matching gift process. This manual approach was time-intensive; the University of Lynchburg team realized that they may be overlooking some valuable opportunities.

Fortunately, Double the Donation has allowed the University of Lynchburg to scale their efforts and take a more proactive approach to matching gifts. Now, as soon as donors contribute, they are alerted to their match eligibility and guided to the proper form to submit that request. The automated follow-up also makes it easy for the University of Lynchburg team to drive additional matching gift revenue without all of the hassle.

Double the Donation has saved an incredible amount of time for our small advancement shop and is consistently dependable on the messaging and the follow-up process that happens. These increased matching gift funds have greatly helped us reach many of the annual goals that we have set over the last couple of years.

About University of Delaware

The University of Delaware is committed to excellence in undergraduate and graduate education, research and service.

From its roots as a private academy in 1743, the institution today is a research-intensive, technologically advanced university with global impact.

Streamlining Matching Gifts with Double the Donation

Prior to implementing Double the Donation, the University of Delaware Development and Alumni Relations team had a manual process for identifying and following up with donors who were matching gift eligible.
